## Low-Light Engagements Instructor Course

**COURSE DESCRIPTION:** It is commonly known that whenever we discharge our firearms in a self-defense situation, we need to properly identify our threat. Low-light training for Law Enforcement is often very minimal. Our 24 hour Low-Light Engagements Instructor course will train you how to deploy your weapon system in a low-light environment utilizing both handheld and weapon mounted white lighting systems, and take that information back to your respected agencies to pass it along. Students will employ white light techniques taught in class, allowing them to find which systems works best for them. Students will be required to work safely on a dynamic flat range around barricades and working around partners, all while demonstrating proper weapon fundamentals to engage and win deadly force encounters. Students will be required to develop courses of fire as part of a group exercise to run the remainder of the class through.

### TOPICS:

- Medical/Safety Brief
- Understanding the Need for Low-Light Training
- Case Law relating to Firearms Instruction
- Instructor Development
- Principles of Low-Light Tactics
- Gear Selection
- Anatomy of Low-Light
